combines superior cheapness and safety, reducing the rates on first class property from 40 to 60 per cent., and the holder of a perpetual policy can never be subject to loss by neglecting to renew. This mode of Insurance is especially adapted to Dwellings, Barns, Churches and School Houses, covering not only the buildings, but their contents, such as Furniture, Hay, Grain, Live Stock, etc.

THE ENTERPRISING COMPANY, IN A LITTLE over six years, has issued over 13,000 Policies and paid near \$200,000 in Losses. It is prompt in all its business transactions, paying its losses as cheerfully as it receives the premiums on its policies, departing in no respect from the general principles upon which all the great Mutual Life Insurance of America have based their success. It claims the advantages of increased rates of interest on its investments, over Eastern Companies; and, also, a less rate of mortality than is experienced in the East-two very important items to con-
